Connecticut's Fifth Largest Credit Union Selects MortgageClick

Woburn, MA – October 15, 2004: Nutmeg State Federal Credit Union, a \$275 million institution and the fifth largest institution in Connecticut, selected MortgageClick to expand their lending initiatives.

MortgageClick is making the web enabled system, developed by Prime Alliance Solutions exclusively for credit unions, available to institutions across the country. The platform allows credit unions to offer members 24-hour access to their personal mortgage options, including a streamlined application that delivers approvals within minutes. With national mortgage lenders spending heavily on technology, the collaborative approach offered by MortgageClick allows credit unions of all sizes to provide a cutting edge solution for their members and staff while driving down origination costs.

MortgageClick provides a private branded solution exclusively for credit unions, customized to match their specific first and second mortgage products and programs. With the implementation of this solution, credit unions will be able to provide the highest level of service to their members via their branch network and the internet. The support, pricing and training offered by MortgageClick made the selection of this solution the logical choice for Nutmeg State to enhance their active lending program.

The sharing approach offered by MortgageClick allows credit unions, that otherwise would not be able to afford the staff requirements or financial commitment, to implement the Prime Alliance Solution. Supported by MortgageClick, every credit union can experience the benefits. With the addition of Nutmeg State, MortgageClick has over 80 credit unions currently utilizing this solution. To see if MortgageClick's collaborative solution would benefit your credit union contact Dan Hanlon at dan@mortgageclick.biz or visit the web site at www.mortgageclick.biz.
